DETAILED ACTION

This is the first office action for serial number 09/405,628, Arm Apparatus for Mounting Electronic Devices, filed on September 24, 1999.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-74, 89-107, drawn to an extension arm.

Group II, claims 75-88, drawn to an end cap.

Group III, claims 108-117, drawn to a forearm extension.

Group IV, claims 118-171, drawn to a method of making an extension arm.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The process claim is specially adapted for the claimed product with a technical relationship being presented therebetween. See MPEP 1893.03.

Douglas J. Ryder on March 10, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
